Docket No. 03035282

License No. 37-30546-01

Frank V. Kelkis
President
Precision Calibration and Testing Corporation
P. O. Box 3658
3799 Concord Road
York, PA 17402-0658

SUBJECT: INSPECTION 03035282/2006001, PRECISION CALIBRATION AND TESTING CORPORATION, YORK, PENNSYLVANIA SITE AND NOTICE OF VIOLATION

Dear Mr. Kelkis:

On June 7 and 8, 2006, Dick Ladun of this office conducted a safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was limited to the security measures associated with the exposure devices which you have placed in storage. Additional information provided in the telephone conversation on June 20, 2006, between you and this office was also examined as part of the inspection. The findings of the inspection were discussed with you at the conclusion of the inspection.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed that categorizes the violation by severity level. You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

Current NRC regulations are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **What We Do, Enforcement**, then **Enforcement Policy**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

F. Kelkis
Precision Calibration and Testing Corporation

NOTICE OF VIOLATION

Precision Calibration and Testing Corporation
York, PA

Docket No. 03035282
License No. 37-30546-01

During an NRC inspection conducted on June 7, 8 and 20, 2006, one violation of NRC requirements was identified. In accordance with the NRC Enforcement Policy, the violation is listed below:

- A. License Condition No.13 of NRC License No. 37-30546-01 names a specific individual as the Radiation Safety Officer (RSO).

Contrary to the above, as of June 8, 2006, the person named as the RSO was not performing the duties of the RSO. Specifically, the named individual had not been employed by the licensee since March of 2006, no individual was assigned the duties of the RSO, and the NRC was not notified of this situation.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Precision Calibration and Testing Corporation is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region I, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

If you contest this enforcement action, you should also provide a copy of your response to the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001. Under the authority of Section 182 of the Act, 42 U.S.C. 2232, any response which contests an enforcement action shall be submitted under oath or affirmation.

Your response will be placed in the NRC Public Document Room (PDR) and on the NRC Web site. To the extent possible, it should, therefore, not include any personal privacy, proprietary, or safeguards information so that it can be made publically available without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

In accordance with 10 CFR 19.11, you may be required to post this Notice within two working days.

Dated This 3rd day of July 2006
