## SUBJECT

Control No. 315374 – Re - Amendment request by application and letter, both dated April 17, 2006, regarding change of Radiation Safety Officer (RSO) for NRC License No. 21-09339-01, from Donald T. Rake to Mark E. Clincy, Safety Manager.

## SUMMARY

In a telephone conversation with Mr. Clincy on this date, the following items were discussed:

1. Mr. Clincy confirmed that he was aware of his appointment as RSO and of the duties and responsibilities the position entails and confirmed that the intent of the amendment was that he also replace Mr. Rake in License condition 12, as the individual authorized to use or supervise the use of licensed material.
2. I related that we would be adding to the license the standard license condition requiring the licensee to restrict the possession of licensed material to quantities below the limit specified in the regulations for establishing decommissioning financial assurance. He confirmed that their possession of licensed materials would not approach these levels. Also, I noted that we would be adding our standard license condition authorizing transport of licensed material, done in accordance with provisions of 10 CFR Part 71.
3. I also noted that their letter, referenced above, was mailed to our old address and that all future written correspondence should be sent to our current address at **2443 Warrenville Road STE 210, Lisle, IL 60532-4352**.
4. I requested that Mr. Clincy provide me a copy of an outline of the topics covered in the three day Radiation Safety Seminar he completed April 10-12, 2006, presented by Engelhardt & Associates.

Licensee was agreed to provide me the requested response to Item 4 above (as additional information to Control Number 315374) by facsimile at 630-829-9782. No follow-up hard copy is needed. Any questions may be directed to me at 630-829-9828.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

## ACTION REQUIRED

Licensee to respond as requested.
