Dear Dr. Jacowitz:

We are pleased to inform you that the Board of Directors of the Certification Board of Nuclear Cardiology has determined that your score on the written examination of October 20, 2002 meets the standards it has established for certification in nuclear cardiology. Congratulations on your achievement!

A passing score of 129 questions correct was determined by an independent panel of peers, representing the disciplines involved in the practice of nuclear cardiology, drawn from both private practice and academia.

The number of questions you answered correctly was 132. The attached chart shows the number of correct answers you had for each of the content areas.

As you may recall, the application form which you completed carried the wording "List name as you wish it to appear on certificate if you successfully pass the exam." Therefore, we will honor your request. You can expect receipt of the certificate by February 1, 2003.

It is important for future mailings that you keep the CBNC headquarters office informed of any address changes.

On behalf of the Board of Directors, I wish to thank you for your participation in the CBNC examination.

Sincerely,

Manuel D. Cerqueira, M.D.  
President
