

10/17/03

Salem

Concerns raised at Salem in 2002 - [redacted] heard about  
[redacted] manipulating Steam leak - trying to look into the  
concerns he was hearing about  
Deshifting <sup>in</sup> but other concerns w/ other shifts

9/24/02 Email from [redacted] to Dr. KH  
issue affecting safe operation of Nuc. station

9/25/02 2<sup>nd</sup> email - 2<sup>nd</sup> thoughts - I don't think this  
will be effective - ? statements re work environment  
even if Mgt. <sup>openly</sup> gives a little in the area of safety to gain monetary  
what meant - explained could have been upset - did not want  
to leave - <sup>as Overall</sup> did not pose <sup>Safety Issues</sup> threat to environment a people -  
try to see how close they could come to that thought.

Mgt. picks low-hanging fruit - big issues that cost are hard to get  
corrected.

Explained this letter (1<sup>st</sup> one) looks like he's going to take  
an active part. Going to jump in and help her.

After 45 hours - decides to be there if KH wants info -  
not going to be active because he might get in trouble &  
it probably isn't going anywhere.

Fear of raising concern - No. Has had an OS ~~stand~~  
call him a name at a meeting. If people you work for don't like. <sup>N-28</sup>

[redacted] <sup>when asked</sup>  
Based on raising a concern to OS - asked for it -  
agrees it's a concern. Two months later claims he hadn't  
heard about it. Then [redacted] presented him with notes &  
challenged his bluff.

[redacted] tried to do things in the beginning. He's in  
trouble - now just

Believes lost temper because mgt. put him in middle &  
said they were fixing when not. <sup>1st step</sup> Re. barring the diesel -  
using wrenches not designed for the task & they kick up.  
~~2nd step~~ Someone got hurt. Someone else took it to [redacted] who  
reprimanded him for not telling him about it. Then later said  
conflicting statement above - "hadn't heard" - Why [redacted] not.

Does this affect people in raising future concerns? Some  
people - not [redacted] May say why bring something up if  
they're not going to do anything about it.

Understand he could have better prepared for this interview.

[redacted] Not affected - will raise concerns.  
Asked why he needed to "blow out" of KKH issues 9/02? -  
Will not put himself in immediate danger. Didn't know of  
anyone who would.

Willing to raise nuclear safety? <sup>Example:</sup> Yes. Offered diesel generator  
24 hr. run - write tech specs. <sup>himself</sup> - then do major maintenance  
Why - ~~Company~~ When questioned mgt. as a safety concern -  
What does it prove? reminds people here. Answer is that's  
the way the industry is going now - got to  
make outages shorter.

10/31 Mark M. advised [redacted] wants to be re-trained -  
not comfortable w/ current rep. present

11/3 - ~~\_\_\_\_\_~~ scheduled for Martin

- sup. of alleged relations on 10/31 -

- Follow up on [redacted]  
[redacted]

0 11/3 7/10 w/ a Ro. tax & basement

11/3 7/c w/ollege

- questioned re ability to find ~~the~~ told her could not help there

asked about timing - advised priority assign. - had to be worked

is a citizen way  $\rightarrow$  could not offer any EDC

19  
- tape transcript - advised not yet - called alley

4. Said OT played tape for him. Said he thought about the

type + <sup>understand</sup> ~~agreed~~ <sup>with</sup> be, that for his level of solution to

have "dangerous" & not want to go forward at that night.

- She has had diminished interest at people and OE investigation processes

Hotel Anis/mt Strani. While on Salem outage 7C

Wag. Assignmet recently

Im-Schede

11/4 INTVIEW w/

tree - no damage

11/5 taken out for home

W. J. ...
