

WHAT ABOUT THE IMPACT
FROM 20 SPENT FUEL
CANISTERS, 40, 60, 80
OR 200 IF YUCCA
MT. DOESN'T OPEN?

In conclusion, Would you please address the concerns reported
by the Brookhaven National Laboratory about the
problem of uncontrolled fire in the containment
ports and containment casks of used fuel rods, as
reported Apr 9, 2002 by "The Wall Street Journal"
editorial entitled "Nuclear War".

Also your
concerns about

How about
plasma energy
for generating
our electric needs?
