Subject: Contact with allegor regarding change to "widely known" status

On Sunday, March 28, 2004, I spoke by phone to Dr. Kymn Harvin after her speech in a rally near Salem/Hope Creek. She confirmed that she had spoken publicly and to media about having contacted NRC and therefore had transitioned to a status of 'widely known' allegor. She understood that the NRC may, from then forward, acknowledge that we have received some issues from her and have been reviewing them.

Thanks to Leanne Harrison for researching all the protocols for this situation.
