Subject: synergy survey

Small Update.

Chris Bakken just stopped in to say hello, Marc and I were here.

He mentioned the synergy survey results (prelim) were 'not good'.

He also mentioned that the results would not be finalized for 2 weeks.

The analysts are currently reviewing/analyzing the essay part of the survey (survey was a combo of multiple choice/survey).

He mentioned that he didnt want the survey on the docket but that he knew we were interested in the results and would provide them.
