Mr. Casey C. Grant
Secretary, Standards Council
National Fire Protection Association
One Batterymarch Park
Quincy, MA 02169-7471

Dear Mr. Grant:

The purpose of this letter is to request a change in the authorized representatives of the U.S. Nuclear Regulatory Commission (NRC) that participate on the National Fire Protection Association's Fire Protection for Nuclear Facilities Technical Committee. I am requesting the Standards Council to change the status of Mr. Paul W. Lain, P.E., from alternate to principal member and assign Mr. Daniel M. Frumkin, as the new alternate member. Mr. Salley, who is the principal member for the NRC on the committee, should replace Nathan O. Sui as a non-voting member of the committee. Enclosed you will find Mr. Frumkin's Technical Committee Membership Application.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence for the NFPA's Technical Committee for Nuclear Power Facilities should be addressed to:
