OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To whom it may concern, I have lived in Plymouth all my life. My family has been here since the beginning. I have followed Pilgrim from the time it came online in 1972. We never got electricity "too cheap to meter" and never had the waste taken away as was promised. These were just two of the biggest issues we are dealing with today. I am uncomfortable living near what has become our own high-level nuclear waste dump. Please use some common sense and stop this plant from producing more high-level nuclear waste. Figure out what to do with the waste and then come back and talk with us. Times have changed in this world. This nuclear fuel is dangerous and would cause huge problems for many years to come if there was a malfunction or a terrorist attack. You must admit that you would never allow a nuclear plant to be built like Pilgrim today or to store their high-level nuclear waste as this nuclear plant does. If you don't take that into consideration than you are not doing the job you are being paid for. I realize I am wasting my time writing this but I had to or I would feel guilty for not standing up for my four kids future in this town. Plymouth does not deserve this for their future. The times have changed so the rules should be changed. Please check my website www.plymouthmass.org for more of my thoughts. Thanks, Wedge Bramhall Plymouth Ma.
