Subject: FW: NRC Request for Core Diagram

Xiaosong-

Here is the core diagram that was requested at the meeting on June 20. Please let me know if this answers the questions raised. We should also have several other responses to questions from 6/1 and 6/20 meetings later today.

Thanks,
Linda Suttora

Linda, would you pass on the attached information to Xiaosong at the NRC. They requested this information in the June 20th meeting. You will note that the attached core map shows 18 core locations, yet the attached photos include a 19th core. Our records do not show that a 19th core was taken from the tank mock-up - it's possible it may have been taken from the mock-up vault area. Keith

The attached core diagram from the grout mock-up is contained in INEEL, 2000, INTEC Tank Farm Facility Closure Conceptual Design Report, Project File No. 015722, September 29, 2000. The attached photos show the cores which are individually labeled in red; in some cases it is not easy to read the number but the cores are loaded in the trays numerically.
