Henry J. Porter, Assistant Director  
Division of Waste Management,  
Bureau of Land & Waste Management  
2600 Bull Street, Columbia, SC 29201-1708

Dear Mr. Porter:

We have reviewed the proposed changes to the South Carolina Radiological Health Rules R.61-63, Radioactive Materials, "Title A.", received by our office on June 26, 2006. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 30, 40, 70, and 71, and the requirements of the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on July 24, 2006.

As a result of our review, we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the South Carolina regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final South Carolina regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other South Carolina regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hsrp.doe.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Bill Rautzen at 301-415-7206 or by e-mail at [WRR@nrc.gov](mailto:WRR@nrc.gov).

Sincerely,
