Subject: Termination of Materials License 31-23902-02

Dear Ms. Ullrich,

As noted by Mr. Dennis Lawyer of Region I during his June inspection, Meprolight has never acquired, possessed or used any radioactive material at the licensed Teaneck premises. In fact, due to commercial considerations, Meprolight has not conducted any activities related to radioactive materials at that location and has recently decided that we will not be doing so within the next year.

During a discussion held after that inspection, we were reminded that if we do not operate the facility within the next twelve months, the license will be rescinded. Therefore, in keeping with the requirements of 10CFR30.36(d), we respectfully request that Materials License 31-23902-02 be terminated.

Thank you for your attention to this matter.

Sincerely,

Brad Fisher
Operations Manager
