

Dear Sirs,

I request a hearing due to a denial of a NRC reactor operator license at Plant Vogtle. My request for hearing is based on having to retake the written exam after previously passing the NRC written examination given at Plant Vogtle in december 2002 and recieving a waiver to re-take only that portion. Due to my mobilization to support Operation Iraqi Freedom in march 2003, I was unable to re-take the simulator dynamic exam in may 2003, and returned to work in July 2004, and was required to re-take the entire NRC examination, to include the portion previously passed.

David Hawes
