Dave,

I am scheduled to be at Salem/Hope Creek that week, so I will not be available.

Joel

We would like to ad-hoc ARB this closed OI case after people have had an opportunity to read and evaluate the report. Because of the need to move this along as quickly as possible, we would like to have the ad-hoc ARB as early as the week of March 7, if at all possible (we know that the RIC is that week). Please get back to the Region I Allegation Office (D. Vito, L. Harrison, S. Johnson) as to your availability/preference for the date/time of an ad-hoc ARB to discuss this. Your feedback and support is appreciated.

Moving this forward will allow us to be responsive, in one letter, to the allegor's remaining issues from the original allegation case file, which included the overall SCWE issue at Salem/HC. It will also allow us to be fully responsive, from a FOIA standpoint, to an anticipated FOIA request from the allegor for all available information.
