Gene,

Can I attend the briefing as well since I am going to ARB. Are you chairing this one?

Thanks,
J

Randy,

We need to discuss this today, if possible. The staff (RIs - no violation vs. Wiebe - violation) is currently divided on whether or not a violation occurred. I am still sorting through the matter. When we have reached a conclusion, I will brief you.

Eugene W. Cobey, Chief
Projects Branch 3
Division of Reactor Projects

Gene, you have my proxy for the ARB

My opinions are as follows:

It seems clear from the OI result that no wrongdoing is substantiated.

I believe there was a nonwillful violation of the procedures for basic conduct of ops, in that the plant manipulations were not under the proper control and full knowledge of the shift.
but i will go with the panel end result, since i can't attend.

Is it your intent to discuss OI Report [REDACTED] at the ARB on 3/9/05. Dave had mentioned this needed to occur. Dan has asked as well.

Sharon
