Subject: Discussion w/ [REDACTED] Hope Creek

Gene,
I had a chance to talk to [REDACTED] today (April 6, 2005). [REDACTED] wanted to discuss potential topics [REDACTED] may be questioned on during a deposition. [REDACTED] is scheduled to participate in for the [REDACTED] Dr. Harvin case verse PSEG in the near future. Prior to talking to [REDACTED] provided me with documentation that contained some of the work [REDACTED] has done which involved trending to identify "global issues" at the site. All the issues presented were known issues that were entered into the corrective action program.

[REDACTED]
[REDACTED] believes [REDACTED] is being called to testify because [REDACTED] has been downgraded over the years from a [REDACTED] believes that [REDACTED] Dr. Harvin may be using that to show that here is someone who raises issues to senior managers and they are being demoted/downgraded for such actions. [REDACTED] stressed to me on several occasions when asked "...[REDACTED] is) not bringing an allegation to me (NRC)...and that [REDACTED] stopped by as a courtesy." [REDACTED] also stated that [REDACTED] would provide me a email/letter stating that [REDACTED] was not bringing the NRC an allegation.

We should discuss further if I need to fill out an allegation form. I reviewed the allegation receipt form and I would not answer any of the 3 questions as "Yes."

An item to note, when [REDACTED] spoke to me [REDACTED] dropped [REDACTED] and [REDACTED] name as people who complimented [REDACTED] on the job [REDACTED] has done regarding [REDACTED]
