Dear Mr. Dembek:

We request an amendment to QSA Global Inc's Export license number CBP0011b to add the country of Oman. We will be shipping industrial radiography sources and equipment including Category 2 sources of Ir-192, Co-60 and Se-75.

The customer is

Sievert Technical Inspection & Partners L.L.C.  
Al Khuwair (Inside), Way 4109, Villa # 772,  
P.O. Box 851, Azaiba, Postal Code 130,  
Sultanate of Oman

They have been in Oman since 2001 in the field of NDT & Inspections Services. They have been a customer of ours in Oman for several years. They are required to get a Radioactive Material Import License for each source that they import. This is based on the specific source serial number, so they apply for approval of each shipment. We will get a copy of this approval and keep on file for each shipment. I have enclosed a sample of this import license.

I have enclosed NRC Form 7 with applicable information and a check for \$13, 900 as required by 10 CFR 170.31(15A).

Please let me know if you need any additional information to process this request.

Sincerely,

Cathleen Roughan  
Director, Regulatory Affairs/Quality Assurance
