I think calling her to discuss Dave's issue is a good idea, but you should get Lisa's opinion also. I just did a similar call on an allegation here in HQ.

- SENSITIVE ALLEGATION INFORMATION -
- PROTECT APPROPRIATELY -

Greg and Lisa,

Attached is our answer to the questions posed to Lisa by DL. However, please be advised that we have not as yet divulged our knowledge of the alleged and her issues to DL. I know that she has spoken with DL on a few occasions, and he has e-mailed me once indicating his knowledge of the issue, and his intentions to monitor our efforts. But since we don't feel she has gone into the status of a "widely known alleged" (as yet), we have not involved DL to date. I know that will make things difficult for you in terms of providing feedback to DL. So, if you have a suggestion, please let me know how you would like to handle. If you believe it's appropriate, I would have no problem calling her up and telling her of DL's interest in our efforts, and asking her if it would be OK to discuss this matter with him.

Gentlemen,

Take a look at the attached email from D. Lochbaum concerning Salem/HC. He asks:

- a) Is the safety culture inquiry being conducted by staff from Region 1? *[REDACTED]*
- b) If not, then by whom?
- c) Which NRC inspection procedure is governing the inquiry?

Can you two talk on the 29th and Greg, you call Dave L. for me.

Thanks, Lisa
