Subject: Hope Creek - Information Related to Known Allegation

Background

During Control Room tour this morning the operators were discussing an article about Dr. Harvin. A [REDACTED] said "...She wasn't fired for raising safety issues....I know people who were fired for raising safety issues."

After the comment I left the control room. I returned to the control room several hours later and when the [REDACTED] was available I was able to talk to the [REDACTED] in a private setting. At that time I asked him if he had any names he would like to share w/ me. At that time he provide me with 1 name [REDACTED]. The [REDACTED] did not have any specific information. The [REDACTED] has been interviewed by OI during its SCWE review.

Actions Taken

I contacted Dave Vito, to find out if we knew this information. He informed me that the NRC is aware of this individual. I asked him if I needed to fill out an allegation form. Dave Vito said that a allegation form would not be needed.
