Subject: UPDATE - PSEG SCWE Highlights, etc.

Gene,

I've just finished the morning project with Randy (he is now off for the weekend). He made some minor "thinning" and some minor changes to the highlighted USA & IAT files. He also identified some of the key quotes/statements from my "final assessment" document and asked that I include them (and a short preamble) in a memo to him.

Attached you will find copies of the updated files (USA & IAT highlight documents and my memo to Randy).

Cindy is getting 3 hard copy packages together for Randy's review on Tuesday. These packages will include excerpts from recent assessments and inspection reports, a "recent issue summary" put together by Randy, my memo, and the USA & IAT highlight documents. Randy asked the I and Scott review the "recent issue summary" for "technical/descriptive accuracy."

If you have any questions, or want to discuss anything, I'll be working on the reply letter for the emails referring to UCS concerns and a summary of Tuesday's VTC until about 4pm today.
