Allegor called to get my opinions about the meeting yesterday. I just told her that it prompted a number of questions on our part and that we were currently discussing those issues to determine how it would affect our follow-up efforts.

She asked me if I knew who [REDACTED] was and if I had seen him at the meeting yesterday. I told her that I didn't know who he was so I couldn't have recognized him. She told me that he was a [REDACTED] who was sitting with [REDACTED] the [REDACTED] at the meeting. She told me that she had heard some information third-hand about [REDACTED] interface with the IAT. She told me that [REDACTED] an into one of the people from the IAT who was doing interviews and asked "Am I on your list?" The IAT member looked at the list of names and responded, "No." [REDACTED] then purportedly took the list and looked at it and replied to the IAT member, "These are all the "YES" people." The [REDACTED] supposedly provided the IAT member with a list of 27 "real" issues that the IAT should be looking into and told him "These are what you should be following up on." 74

She also asked if I knew that Hope Creek was shutting down for an approximate 10 day outage that would interface with the upcoming Salem refueling outage. I told her that I wasn't aware of all those details but that I was sure that Randy and the folks in DRP were well aware.
