Dr. Harvin, my understanding is that at this time the NRC has the PSEG submitted information/analysis under technical review. Based on recent discussions with PSEG I am not aware of any additional "new information"

that would change the licensee's proposal to the NRC. Best Regards, Sam

Randy,

It is my understanding that new information has come to Chris Bakken's attention that could prompt an announcement, wisely and as early as TOMORROW, that PSEG has decided to replace the B recirc pump at Hope Creek.

I am sure such an announcement would be heralded widely as "good news" by all stakeholders.

Since I am not permitted to confirm this directly with Chris, I urge you to do so and to support such a decision that is clearly in everyone's best interests, including PSEG's.

Please let me know this email has reached you. I cannot remember if you said you'd be in or out of the office this week.

Thank you,

Kymn

Nancy Kymn Harvin, Ph.D.
