Kymn,
got it. provided copies, along with your request, to the confidential secretary for eileen and her supervisor.
neither is "IN" at this moment but both are expected back today.

Will call you later to discuss identity protection - - we will closely guard your identity until after your speech. Even after that, when we start getting calls, our normal process will be to not comment initially, but instead contact you to confirm that you have indeed made a public pronouncement. and even then, we don't say a whole lot.

But, if you wish, there are other insructions you could provide us that would be acceptable - - I'll brief you.

randy

Randy,

Please call me after you have read this [REDACTED]

7C

And please share with OI as we discussed and let me know of anything that could potentially compromise the ongoing investigation.

Thank you,

Kymn
