Jeff,

Do we have her notes she refers to? How many of these folks have we talked to either on her 50.7 or the  
SCWE effort? Thanks

Ern

Dave,

Do you know if we have the notes she spoke of to you? She's dropped a lot of stuff on the NRC and was wondering if you knew off hand.

The allegor called me late yesterday afternoon. She had an additional piece of information to provide me in response to my request of her, after the 6/16/04 public meeting, that she provide any additional details she had which would demonstrate corporate production over safety pressure. She indicated that she found information in her notes indicating that a meeting occurred on 3/17/03 involving [REDACTED] and that this type of discussion occurred at that meeting. [She was not in attendance at the meeting.]

*OK*

I don't know if we have the specific notes. My guess is that if someone came into my office and took a couple of hours to go through all the documents we have, they could likely find them. Her statement sounded much like things she has said before (regarding things that happened after the mid-March 2003 events at Hope Creek). I told her during the conversation that we had already interviewed a number of the people she mentioned, and that we would be looking at the results of those interviews to see if things match up.
