Subject: Re: Proposed date/time for meeting in Region I

Kymn,

Thanks for getting back to me quickly. It will be Randy and me, along with Gene Cobey, the current Division of Reactor Projects Branch Chief responsible for Salem/HC, and Scott Barber, the Senior Project Engineer in Gene's branch, who participated in many of the interviews. It is possible that a few others who participated in the review may also attend.

I'm sorry that Sam Collins will not be here that day. He will be on a site visit to Oyster Creek. He did indicate to me that he would be glad to meet with you on another occasion.

Kymn,

After checking everyone's schedule here, it looks like the best date/time for us is
2:00 p.m. on Wednesday 8/18/04. Randy cannot be available in the morning, otherwise, I would have proposed an earlier start time. Please call or respond by e-mail to let me know if this is OK. Thanks.

Dave,

This date/time is fine.

Please advise me who will be attending.

I appreciate you offering this meeting and coordinating it.

Thanks,
Kymn
