containers. The shipment container approximately 37,307 kgU at an average enrichment of approximately 3.51 wt% U-235, based on the design weights.

3. Transport Route

The shipment will depart from Savannah, Georgia via the vessel "Cho Yang Giant" going to Kaohsiung, Taiwan and will be transported overland to Keelung, Taiwan. Upon arrival at Keelung, the Taiwan Power Company, or its agent, will take physical custody of the shipment as arranged prior to shipment.

4. Schedule

The shipment is scheduled to depart Savannah, Georgia on January 11, 2000 and is expected to arrive at Kaohsiung, Taiwan on February 10, 2000 and be transported to Keelung, Taiwan later in February.

5. Assurance

The shipment will be protected during transport in accordance with IAEA Information Circular 225, "Physical Protection of Nuclear Materials."

If you have any questions, please call me on (509) 375-8380.

Very truly yours,

Dan L. Noss
Senior Scientist, Safeguards
