Re: the attached,

Dr. K's cell phone number is [REDACTED] *DL* She may accept a fax but you will have to get a fax number from her if that is the option she chooses. As I indicated yesterday, she usually asks for the stuff to be sent to her via e-mail, and since she has trouble w/Word Perfect, I usually end up just block copying the text of the letter right into my e-mail message. Her e-mail address is:

[REDACTED]

Alleger is very eager to see the mid-cycle letters; she called me today to inquire whether we might have signed it a day early.
