Attention: Document Control Desk  
Washington, D.C. 20555-0001Subject: Davis-Besse Nuclear Power Station  
Withdrawal of License Amendment Application  
(License Amendment Request (LAR) 03-0015; TAC No. MC8004)

Ladies and Gentlemen:

By letter dated July 27, 2005 (Serial Number 3158), the FirstEnergy Nuclear Operating Company (FENOC) submitted License Amendment Request (LAR) 03-0015, an application for amendment of the Operating License, Appendix A, Technical Specifications (TS) for the Davis-Besse Nuclear Power Station (DBNPS). The proposed amendment would revise TS 3/4.8.1.1, "A. C. Sources - Operating," to adopt a more recent standard for diesel fuel oil testing, and allow Surveillance Requirements (SR) 4.8.1.1.2.d.1 and 4.8.1.1.2.d.3 to be performed on-line.

By letter dated May 30, 2006 (Serial Number 3262), FENOC requested withdrawal of the portion of LAR 03-0015 that affected TS SR 4.8.1.1.2.d.1 and TS SR 4.8.1.1.2.d.3.

FENOC hereby requests withdrawal of the remainder of LAR 03-0015. FENOC will reconsider the proposed changes in light of the related Consolidated Line Item Improvement Process Federal Register notice, issued on April 21, 2006 (Technical Specifications Task Force (TSTF) TSTF-374, "Revision to TS 5.5.13 and Associated TS Bases for Diesel Fuel Oil," 71 FR 20735).

Attachment 1, Commitment List, identifies that there are no commitments contained in this letter. If there are any questions or if additional information is required, please contact Mr. Gregory A. Dunn, Manager – FENOC Fleet Licensing, at (330) 315-7243.
