Donna:

Your request has been timely received. I'll be out next week and will be in touch the following week. I need to check with our FA lead in decommissioning to see if we need anything else from you for the extension.

Ron

Mr. Ron Linton, Hydrogeologist
COGEMA Mining, Inc. Project Manager
U.S. Nuclear Regulatory Commission

Dear Ron,

Condition 9.5 of COGEMA Mining, Inc.'s license SUA-1341 (Docket 40-8502) requires that annual updates to the surety amount be provided to NRC by August 18 of each year. August 18 is the anniversary date of our annual report to the Wyoming Department of Environmental Quality, which includes the annual surety update for WDEQ. We have requested and received a 60-day extension in submitting the annual report to WDEQ due to some of our key personnel being on medical leave. Because the surety update is a key part of the annual report, and the same surety update is submitted to both WDEQ and NRC, we hereby also request a 60-day extension in submittal of the surety to NRC. The surety would then be submitted to NRC no later than October 17, 2006.

Your assistance with this request is certainly appreciated. If you need more information, please contact me at (307) 234-5019.

Sincerely,

Donna Wichers
