Telephone Conversation with Laura Luna of MPC, the
Licensee's Consultant

The reviewer spoke to LL on 7/25/06 concerning this new license application and the amendment request for Cardiology Institute of Michigan. The problem was that the licensee submitted duplicate applications for both actions.

LL stated that that should not have happen and only information pertaining to the amendment should have been included. I advised that for the amendment, I would tie the application down concerning information that only pertains to Cardiology Institute. Also LL confirmed that Dr. Breece is the administrator for Cardiology Consultants and Dr. Hasnie is the administrator for Cardiology Institute. Both applications are adequate and the licenses issued.

James Mullauer, 7/25/06
