  3. Letter from Mr. Randy Hutchinson (Entergy) to U.S. NRC, "Updated Schedule of Submittal of License Renewal Applications for Entergy Plants," dated May 19, 2005

Ladies and Gentlemen:

Entergy Nuclear Operations, Inc. (Entergy) is providing updated information about plans for future license renewal application submittals. This letter provides an update to the information previously provided in References 1, 2, and 3. Specifically, the previously planned January 2007 license renewal application submittal is being revised to March 2007.

Based on this updated information, Entergy's current license renewal application submittal schedule is as follows:

- |    |              |                      |
|----|--------------|----------------------|
| 1. | July 2006    | James A. FitzPatrick |
| 2. | March 2007   | Unnamed plant        |
| 3. | January 2009 | Unnamed plant        |
| 4. | January 2010 | Unnamed plant        |

After the July 2006 date, specific plants are not identified because the actual order of submittal for Entergy's license renewal applications is subject to re-evaluation and updating as business conditions evolve. While Entergy does not anticipate changes to future application submittal dates, those dates also may change based on evaluation of evolving business conditions.

This letter contains no commitments.
