NRC ADVISORY COMMITTEE ON REACTOR SAFEGUARDS TO MEET SEPT. 7-9 IN ROCKVILLE, MARYLAND

The Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS) will hold a public meeting Sept. 7-9 in Rockville, Md., to discuss, among other items, the final review of the license renewal application for the Monticello Nuclear Generating Plant, in Minnesota. The committee will also be briefed by the staff on "lessons learned" from reviews of the early site permit applications for Grand Gulf, North Anna and Clinton sites.

The meeting will be held in Room T-2B3 of the agency's Two White Flint North building, at 11545 Rockville Pike. It will begin at 8:30 a.m. each day and end at 7 p.m. on Thursday and Friday and 1 p.m. on Saturday. Portions of the meeting will be closed for a discussion on safeguards and security matters. A complete agenda will be available on the NRC's Web site at: <http://www.nrc.gov/reading-rm/doc-collections/acrs/agenda/2006/>.

Anyone with questions or those wishing to make public statements during the meeting should contact Sam Duraiswamy at 301-415-7364. To pursue videoconferencing services, contact Theron Brown, at 301-415-8066.

The ACRS advises the Commission on licensing and operation of nuclear power plants and related safety issues.
