SUBJECT: REACTOR AND SENIOR REACTOR OPERATOR INITIAL RETAKE  
EXAMINATIONS - NORTH ANNA POWER STATION 05000338/2006302 AND  
0500339/2006302

Dear Mr. Christian:

In a telephone conversation on August 16, 2006, between, Mr. Walt Shura, Supervisor Nuclear Training (Initial Operations) and Mr. Gerry Laska, Senior Operations Engineer, arrangements were made for the administration of licensing retake examinations for two applicants at North Anna Power Station, Units 1 and 2. The Reactor Operator written examination is scheduled to be given on November 14, 2006, and the Senior Reactor Operator administrative operating test and on-site preparations are scheduled for the week of November 13, 2006.

As agreed during the telephone conversation, your staff will prepare the examinations based on the guidelines in Revision 9, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors". Your staff will develop the written examination, administrative JPMs, and will also provide copying services for administering the examinations. The NRC regional office will discuss with your staff any changes that might be necessary before the test is administered.

To meet the above schedule, Mr. Shura agreed that your staff will furnish the administrative operating test outline by August 29, 2006, and the written exam, administrative operating test and the supporting reference materials identified in Attachment 2 of ES-201 by September 29, 2006. Pursuant to 10 CFR 55.40(b)(3), an authorized representative of the facility licensee shall approve the outlines and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready-to-use. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examination to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with NUREG 1021, ES-402, "Administering Initial Written Examinations," and to make the simulation facility available on the dates noted above if needed.

Appendix E of NUREG-1021, "Policies and Guidelines For Taking NRC Examinations," contains a number of NRC policies and guidelines that will be in effect while the written examinations and operating tests are being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (if any)(OMB approval number 3150-0090) at least 30 days before the first examination date. If the applications are not received at least 30 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 14 days before the first examination date.

This letter contains information collections that are subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on June 30, 2009. The public reporting burden for this collection of information is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at BJS1@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0101), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Thank you for your cooperation in this matter. Mr. Shura has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Gerry Laska at (404) 562-4626, (Internet E-mail: [gwl1@nrc.gov](mailto:gwl1@nrc.gov)), or me at (404) 562-4647, (Internet E-mail: [jhm2@nrc.gov](mailto:jhm2@nrc.gov)).

Sincerely,

**/RA By S. Rose For/**
