<table style="width: 100%; border: none;"> <tr> <td style="width: 30%; padding: 5px;">Summary:</td> <td style="padding: 5px;"> <p>Ms. Bentliff called to inquire about an invoice she received in the mail. I explained that the invoice was for a specific NRC license (i.e., SUB-1561) and that it authorized depleted uranium for a linear accelerator. She stated that the linear accelerator, a Varian 6/100, had been transferred to a company in Florida on January 5, 2005. I asked if the current unit used depleted uranium as shielding and she said no. I informed her that the fee for the license was due even if they did not have any licensed material on hand. If they did not want to be billed for next year, then they would have to send in a written request to terminate the license. The request should also have a copy of the recipient's Florida license authorizing possession of the material and a letter indicating that they have received the material. Ms. Bentliff stated she would look into the matter and get back in touch with me if she had any questions.</p> </td> </tr> </table>			Summary:	<p>Ms. Bentliff called to inquire about an invoice she received in the mail.
