SUBJECT: INSPECTION 03036955/2006001, ENCORE SPECIALTY, LLC

Dear Mr. Shah:

This letter refers to your July 24, 2006, correspondence, in response to our July 18, 2006, letter. Your response indicated that the case containing the gauge will be locked when not in use. Please be reminded that you must use a minimum of two independent physical controls that form tangible barriers to secure portable gauges from unauthorized removal, whenever portable gauges are not under your control and constant surveillance, as required by 10 CFR 30.34(I).

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.

John D. Kinneman, Chief
Security and Industrial Branch
Division of Nuclear Materials Safety
