SUBJECT: UNIVERSITY OF VIRGINIA HEALTH SERVICES FOUNDATION,
ACCEPTANCE OF NOTIFICATION OF RADIATION PROTECTION SURVEY,
CONTROL NO. 139244

Dear Dr. Aqualino:

This is in reference to your letter dated July 22, 2006 notifying the NRC that you have completed various tests following replacement of the sources in your gamma stereotactic device. These tests included the radiation surveys required by 10 CFR 35.652, and other acceptance tests for the unit. We note that radiation levels are in accordance with the sealed source and device registry and within the applicable limits in 10 CFR Part 20.

Please note that, as described in the applicable sections of Subpart H to 10 CFR Part 35 (e.g., 10 CFR 35.652.g, 10 CFR 35.655.c) these records are required to be retained by the licensee, and therefore, do not need to be submitted to the NRC for review following future source replacements. No further correspondence on this matter is required.

Your cooperation is appreciated.

Sincerely,

Original signed by Penny Lanzisera
