ATTN: John Smith
Radiation Safety Officer
P.O. Box 217
Ft. Washakie, Wyoming 82514

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On letter dated March 6, 2006, and subsequent facsimiles dated March 14, 2006, and March 16, 2006, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive materials license. The NRC staff has reviewed your sealed source leak test results. Based on its review, the staff has concluded that:
1) all licensable radioactive material has been removed from your facility, and 2) residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 49-27636-01 for your facility at Ft. Washakie, Wyoming, is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure(s) will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at 817-860-8189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres
Senior Health Physicist
Nuclear Materials Licensing Branch
