Re: Extension of Deadline for Supplemental Feasibility Study  
UNC Superfund Site, Church Rock, NM  
Administrative Order (Docket No. CERCLA 6-11-89)

Dear Mr. Bush:

The U.S. Environmental Protection Agency (EPA) is responding to a written request made by N.A. Water Systems on behalf of the United Nuclear Corporation (UNC) for an extension of the 60-day period for EPA to receive an amended Site-Wide Supplemental Feasibility Study (SWSFS). After considering N.A. Water Systems request, EPA has decided to approve an extension to November 30, 2006, for receipt of the SWSFS, as requested. The EPA recognizes that the SWSFS will not include the summary report of the in-situ alkalinity stabilization pilot study.

If you have any questions, please contact me by telephone at 214-665-6707 or via e-mail at [purcell.mark@epa.gov](mailto:purcell.mark@epa.gov).

Sincerely,

A handwritten signature in black ink, which appears to read "Mark D. Purcell", is written over a horizontal line.

Mark D. Purcell  
Remedial Project Manager  
Superfund Division

Mr. Larry Bush  
Supplemental Feasibility Study  
UNC Superfund Site, Church Rock, NM
