SUBJECT: SUMMARY OF AUGUST 24, 2006, CATEGORY 2 MEETING ON
FREQUENTLY ASKED QUESTION PROCESS REGARDING
NATIONAL FIRE PROTECTION ASSOCIATION STANDARD 805

On August 24, 2006, the U.S. Nuclear Regulatory Commission staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association Standard 805. Preliminary positions with respect to several questions were discussed, and draft consensus positions were achieved on two questions. Four new questions were also introduced. The participants determined that additional discussions should occur concerning the remaining preliminary positions and that draft positions should be developed for the newly introduced questions.

All participants agreed that the next monthly meeting should occur in late September, and preferably be conducted face to face.

The new FAQs introduced at the meeting are available at ADAMS Accession Nos. ML062350095, ML062350109, ML062350121, and ML062350202.
