Amendment No. 09

CONDITIONS

10. Licensed material may be used and stored at U.S. Department of Defense installations; DOD contractor facilities and operations, excluding General Dynamics and its subcontractors, approved of by the licensee Radiation Safety Officer (RSO); and at temporary job sites of the licensee anywhere in the United States.
 11. Licensed material shall be used by, or under the supervision of, Karen Lapajenko McGuire.
 12. The Radiation Safety Officer for this license is Karen Lapajenko McGuire.
 13. The licensee shall conduct a running physical inventory as described in application received February 28, 2006, to account for all sources and/or devices received and possessed under the license.
 14. The licensee shall maintain records of information important to safe and effective decommissioning at U.S. Army Tank - Automotive Command (TACOM), Warren, Michigan, per the provisions of 10 CFR 40.36(f) until this license is terminated by the Commission.
 15. The license is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
 16. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 40.36(b) for establishing financial assurance for decommissioning.
 17. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
