SUBJECT: QUALITY ASSURANCE PROGRAM MANAGEMENT CHANGE

Reference: Docket 71-0900

Dear Mr. Jacobs:

This letter is to inform you about a change to our Washington Group International Engineered Products Department Quality Assurance Program Management.

In March, Matt Leroch was named acting QA Manager after Val Cannon accepted a position with WTS. Effective August 26, 2006, Preston Harvey has been named QA Manager and Matt Leroch has been named Contracts Manager.

Mr. Harvey began his career at EPD in 1994 in Operations and then as a QC inspector for three years. He transferred to WTS in 1999 and held the positions Quality Control/Assurance inspector for two years and Quality Engineer for the last five years before coming back to EPD in May as the Assistant Quality Assurance Manager.

Mr. Leroch is a 30-year veteran of the Westinghouse system, having held positions as an Engineer, Design Engineer, Project Manager, Manager of Projects, and Marketing and Sales Manager. Matt Leroch will be responsible for all work activities associated with contract development and administration.

These changes were made to strengthen both our QA department and contract management activities. If you have any questions, you can reach me at (505) 234-5703 or on my cell phone (505) 205-9370.

Sincerely,

Bruce J. Kaiser
General Manager
