

Doris Mendiola - Relicensing of the plant

Subject: Relicensing of the plant

My wife and I want to voice our concerns and objections to the relicensing of the nuclear power plant in Lacey Township, NJ. We have read about the issues from both sides and remain convinced that the management is not doing enough to protect the environment and public safety. The plant's radioactive gas waste emissions that are dumped into our air and surrounding waters are a danger. Many local officials have gone on record as saying they also are opposed.

Please consider the consequences of your actions for the future of the communities surrounding this area and the children who will be exposed years from now.

Sincerely,

Tom D. Jones
