Dear Ms Casey:

Please add an to the request for the current pending amendment to Byproduct material license no. 12-32597-01 for an additional authorized user.

David Shipon, M.D.
Enclosed are copies of his training and certification.

If there are any questions please call me at (734) 455-4730 office or (734) 395-7361 cell.

Sincerely,

Ray A. Carlson, M.S., DABR, DABMP
Radiation Safety Officer

THE CERTIFICATION BOARD OF NUCLEAR CARDIOLOGY

Incorporated 1996

CERTIFIES THAT

David M. Shipon, M.D.

HAVING MET THE REQUIREMENTS PRESCRIBED BY THIS BOARD FOR PHYSICIANS RESIDING
IN THE UNITED STATES AND HAVING SATISFACTORILY PASSED THE REQUIRED EXAMINATION,

IS HEREBY DESIGNATED

A DIPLOMATE CERTIFIED IN THE SUBSPECIALTY OF

NUCLEAR CARDIOLOGY

FOR THE PERIOD 2005 THROUGH 2015

Paul J. Ferguson
PRESIDENT

Gentlemen:

Please find enclosed:

- A. Certificate of your participation in our didactic nuclear Radioisotope Handling Course 2002-2003.
- B. Signed Partial Preceptor Papers documenting the didactic portion of your training. Please add your state license and specialty board certifications (IM and Cardiology - Passed or Pending)
[At least IM must be passed; list cardiology pending 11/03].

The preceptor paper should be handed in with the clinical preceptor paper to place you on a site license (save a copy for yourself).

Hope you are all well. Wishing you the best in your careers. It was a pleasure. Call with questions.

Sincerely,

William A. Van Decker, MD

To the Certification Board of Nuclear Cardiology

Dr. David Shipon has completed a training program in nuclear cardiology that meets the requirements as outlined in the ACC/ASNC COCATS Guidelines (revised 2000).

Dr. Shipon is competent to independently function as an authorized user under NRC 10 CFR 35.290 uses.

Sincerely,

Charles M. Intenzo, M.D.

RE: DAVID SHIPON M.D.

To Whom It May Concern:

This letter will certify that Dr. David Shipon has fulfilled the requirements for nuclear cardiology according to the COCATS guidelines. During his fellowship at Thomas Jefferson University which began in July 2000 and will end in June 2003, Dr. Shipon has spent a total of 10 months rotating through the Nuclear Medicine Division. During these months, he participated in interpretation of clinical cases involving SPECT myocardial perfusion imaging as well as equilibrium gated blood pool imaging of the left ventricle. SPECT myocardial perfusion scans were a combination of both Thallium-201 and Tc99m Sestamibi. There were 15 of these scans per day, totally 300 per month. During his 10 months spent in nuclear medicine, Dr. Shipon participated in the interpretation of a total of approximately 3,000. In addition, approximately 2 gated blood pool studies were performed daily, totally about 40 cases per month, with the sum total of 400 studies for his 10-month nuclear medicine experience. All of the above cases were interpreted under my supervision. In terms of didactic conferences, all fellows participated in a monthly correlated case conference in which patients undergoing both stress myocardial perfusion imaging and coronary angiography were presented, such that the results of the myocardial perfusion study would be compared with the angiographic results. Dr. Shipon demonstrated competence in interpreting all stress myocardial perfusion scans as well as all gated blood pool studies.

In summary, Dr. Shipon more than qualifies in the interpretation of nuclear cardiac imaging. Please let me know if I can be of further assistance.

Sincerely,

Charles M. Intenzo, M.D.
Director and Associate Professor
Division of Nuclear Medicine
Dept. of Radiology

DAVID M. SHIPON, MD ACHIEVES BOARD CERTIFICATION IN NUCLEAR CARDIOLOGY

Montgomery Village, Maryland, USA - The Certification Board of Nuclear Cardiology (CBNC), a not-for-profit corporation established to develop and administer practice-related examinations in the field of Nuclear Cardiology, is pleased to announce that David M. Shipon, MD, of Philadelphia, PA passed the certification examination on October 23, 2005. Dr. Shipon is now entitled to designate him/herself as "Diplomate of the Certification Board of Nuclear Cardiology".

<< *Diplomate to add his/her biographical information here* >>

The purposes of the CBNC Certification Program are to establish the domain of the practice of Nuclear Cardiology for certification; to assess the level of knowledge demonstrated by Nuclear Cardiology specialists in a valid manner; to encourage professional growth in, and enhance the quality of, the practice of Nuclear Cardiology; to recognize formally individuals who meet the requirements set by CBNC; and to serve the public by encouraging quality patient care in the practice of Nuclear Cardiology.

CBNC has been recognized by the Nuclear Regulatory Commission (NRC) as meeting the requirements for the specialty board certification pathway under 10 CFR Part 35, Section 35.290.

About CBNC

The Certification Board of Nuclear Cardiology, a not-for-profit corporation established in 1996, is a fully autonomous entity, independent of any other association, society, or academy. This independence allows the CBNC to maintain integrity concerning policy matters related to certification. Since 2003, CBNC has collaborated with the Certification Council of Nuclear Cardiology (CCNC) to offer the examination in a European venue. CCNC has representation on the CBNC's Examination Committee.

To date, 4,315 physicians have been certified in nuclear cardiology.
