RE: Demolishing Request and Reactivation of Amendment Action

Dear Mr. McCann:

13-17582-02

4
In response to the investigation conducted on July 13, 2006 at Rose-Hulman Institute of Technology in Terre Haute, Indiana, we would like to request the release of the building that was part of the investigation for immediate demolition, prior to your receiving the characterization information and data from RAM Services.

We would also like to request that the Nuclear Regulatory Commission reactivate our amendment actions pertaining to our license, that were put on hold pending this on-site investigation conducted by Sam Mulay, Radiation Specialist and yourself.

Thanks very much for your time and assistance in resolving this matter for our Institute. We have appreciated the cooperation and guidance that the Nuclear Regulatory Commission has provided us during this process.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael R. Howard II".

Michael R. Howard II
Manager - Environmental Health and Safety
Rose-Hulman Institute of Technology
