Riverview, MI 48193-4270

Dear Mr. Shelton:

Enclosed is Amendment No. 02 to your NRC Material License No. 21-32364-01, in accordance with your request by letter dated July 11, 2006, and our conversation by telephone on September 18, 2006. Also, please note that due to our current licensing guidance, we have modified License Item 8. A. (to specify a possession limit for the activity of licensed material) and License Condition 13. F. (regarding leak test criteria) as well as deleted License Condition 24., which specified a possession limit, no longer needed due to the possession limit added to License Item 8. A. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Loren J. Hueter
Materials Licensing Branch
