ORGANIZATION Holtec International				
SUBJECT License Amendment Request - Resolution of Thermal Issues				
SUMMARY (Continue on Page 2)				
<p>Holtec Attendees in addition to those listed above: Debu Mitra-Majumdar NRC Attendees: Christopher Regan, Jorge Solis, Larry Campbell</p> <p>NRC called Holtec International to continue dialogue regarding resolution of thermal issues and the revised approach taken by Holtec as suggested by the staff during a public meeting held on September 8, 2006. See previous Conference Call Summary dated 09/18/06.</p> <p>The NRC had the opportunity to briefly review the information provided in the 09/18/06 conference call. As a result the staff noted that there still exists a discrepancy in the results obtained by the staff and the results obtained by Holtec. Given that it appeared all input parameters being used by both parties were the same, and the models used by the same, it was agreed that the most prudent next step would be to share calculation files. Holtec agreed to make their files available to staff. The staff is going to examine Holtecs analysis and attempt to determine where and why the differences exist.</p> <p>As noted in the 09/18/06 conference call, the objective remains to come to agreement on Holtecs new analysis and permit Holtec to continue with their analyses for the entire storage system and complete the thermal portion of the Amendment request.</p> <p>The staff will contact Holtec when there is further information to communicate regarding the staffs review.</p>
