Re: Advance Notification of Export Shipment of Spent Nuclear
Material of Low Strategic Significance(Category III)

Dear Ms. Bennington,

Please refer to our advance notice of August 21, 2000 (Project code: 1F3-R19/TK2-R18) as per attached.

We were advised by Mitsui/Tokyo today that we might ship additional 45 natural UO2 drums for TK2-R19/TS1-R26, together with 108 UO2 drums (departing Wilmington, NC on Sept. 1, 2000) since our customer in Japan wishes to ship above additional 45 drums. We expect to have final decision within this week.

Under the above situation, we would like to know whether or not we can ship additional 45 natural UO2 drums (leaving Wilmington, NC on Sept. 1) if we send you our revised notice (including additional 45 natural UO2 drums) this week or early next week.

We would appreciate your kind cooperation on this issue.

Best Regards,
