Dear Ms. Bennington:

The University of Missouri Research Reactor facility (MURR) would like to make two changes to the previously approved 2004 calendar year windows for the shipment of unirradiated fuel from the BWXT, Inc (Lynchburg, Virginia) to the University of Missouri Research Reactor facility. The requested changes are indicated below:

- ❖ **Move the August 9 – 13 shipment window to September 13 – 17.**
- ❖ **Cancel the October 11 – 15 window.**

The rest of the shipment windows for the calendar year will remain the same. The changes have been discussed with Ms. Sandra Williams of BWXT. Please let me if you have any questions regarding the above schedule changes.

Sincerely,
