

New Reactor Infrastructure

Revision to NUREG-0800, Standard Review Plan
and selected Regulatory Guides

September 21, 2006

Stephen Koenick, NRR

Stephen O' Connor, RES

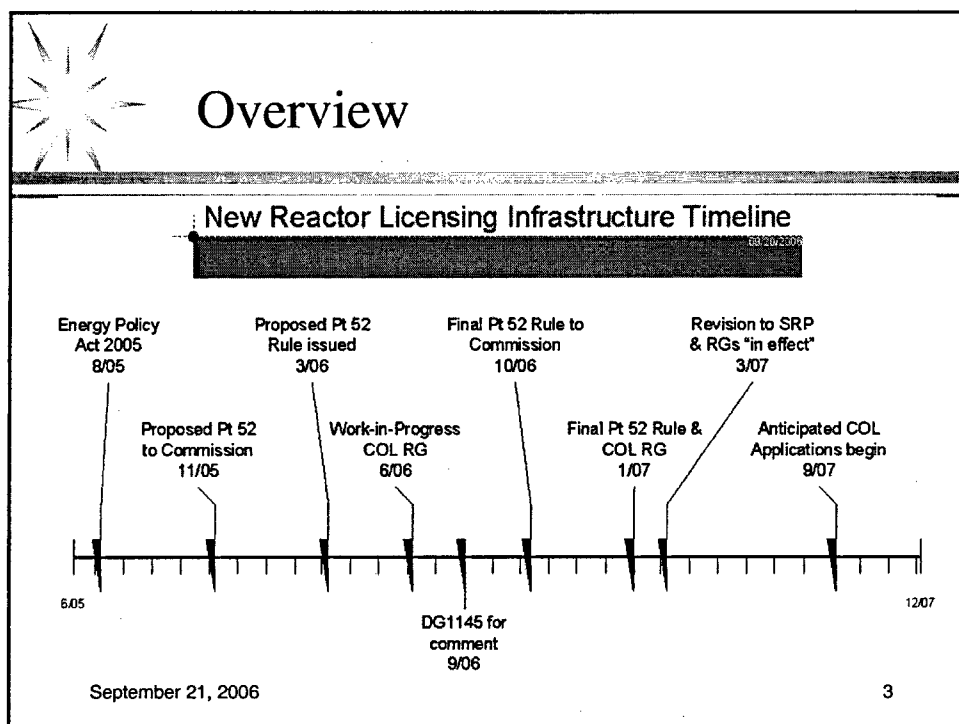

AGENDA

- Overview
- Standard Review Plan (SRP)
- Regulatory Guides

September 21, 2006

2

Standard Review Plan Revision

- Issuance of revision to the SRP by March 2007
 - Schedule to support requirement in "contents of application" regarding *Conformance with the Standard Review Plan (SRP)*.
 - Update conforms to LIC-200, Rev 1, May 8, 2006
 - Using scoping results to inform stakeholders on anticipated changes in the revisions

September 21, 2006

4

SRP Revision (continued)

- Issuing as final SRP section revisions which are available for comment instead of requesting comments on draft SRP sections revisions.
- Comment resolution will be addressed in subsequent SRP revisions.
- Prior to revision to individual sections, comment resolution may establish a basis for how alternatives to the SRP acceptance criteria provide an acceptable method of complying with the NRC's regulations.

September 21, 2006 5

SRP Revision (continued)

- Preliminary revisions to be made publicly available following review and approval of technical and administrative aspects of the update
- Where practical, SRP revisions will be packaged with concurrent Regulatory Guide updates for consideration by the ACRS.
- Formal issuance scheduled for end of March 31, 2007, following reconciliation of Part 52 rulemaking and comments received on concurrent regulatory guide revisions including DG-1145.
