Subject: Question about OI Case 1-2003-045

Jeff,

How are things in the region these days? I hope everything is going well.

I have a few questions you could help me on. I will be briefing the Commission in the near future on OI case 1-2003-045 that you investigated. I assume they will ask questions about how long it normally takes to complete an OI investigation, why this case took 15 months to investigate, and many others. If you could provide any insight it would be greatly appreciated. I assume your providing the same info to Gene Colby since he is putting together the communication plan for this case.

Thanks for you help
Russ
